SIMONI ACCUSED.

Charges Made in Court Against an Ellis Island Officer.

Sensation in the Trial of the Alleged Italian Procurers.

The Case Going on in Judge Benedict's United States Court.

The sensational testimony of Bettina Gordiano, who swore that her companion. irma Antonina, had accused Capt. Michael Di Simoni, an Ellis Island inspector, or criminally assaulting her, as printed exclusively in yesterday's EVENING WORLD Sporting Extra, drew a large audience to the United States Circuit Court this morning.

Both girls named are young and pretty Italians and are held as witnesses against Prancisco and Clementine Pagliano, who are on trial before Judge Benedict on the charge of bringing Bettina, Irms and several other Italian girls to this country for immoral pur-

The girls swore yesterday that they had been compelled to swear to affidavits accus-ing the Pagitanes of bringing them from Italy r immoral purposes by threats from Di-moni of incarceration in State prison. They also swore that the officer had as-

They also swore that the officer had assaulted one of them.

The people's case was presented by Assistant District-Attorney Mott, and the detendants were represented by Lawyers Daniel O'Connell and Frank E. Hippile.

Thomas Callaghan, a police officer, was the first witness called this morning.

The Gerry Society is taking an active part in the case, and President kibridge T. Gerry and Agent Schultels were both present in court this morning.

He testified to once raiding a disorderly house said to have been kept by the defendant, at 331 East One Hundred and Fifteenth street. Cross-examined be could not swear that either of the detendants on trial was present.

Police Sergt. William W. Sullivan, of the
Twenty-ninth Precinct, produced the 1890
blotter, showing that the night of March 11
of that year the house at 331 East One Hundred and Fifteenth street was raided.

ZERO WEATHER COMING.

Dunn Promises Our First Real Cold Snap To-Night.

The first real cold snap of the season will reach New York to-morrow morning, according to Weather Forecaster Dunn, and the temperature during the next twenty-four hours will, he says, drop from fifteen to twenty degrees. The mercury this morning stood just one degree below freezing point. "If the snow had not melted as fast as it came down," said Mr. Dunn, "the chances are that we would have had sleighing. This cold wave will remain for three days at

least."

In the upper part of this State it is snowing very fast to-day, and there are prospects of elegant sleighing. It is snowing generally east of the Mississippi, as far south as Washington, and east of the Adegheny Mountains the temperature is below freezing.

The storm centre is in Canada, but the cold wave has moved down and is at present in the lake region and moving East with great rapidity. The temperature is below zero in all the northern Mississippi states.

TRYING TO STEAL THE ISLAND.

Coney's Inhabitants Scared by a Band of Pirates.

The peaceful inhabitants of Coney Island are just recovering from a bad scare. Residents of this city will also share the alarm of the islanders when they learn that a gang o pirates landed on the shores of Point Lookout yesterday morning and early went to work to carry off the Manhattan Beach.

They arrived in a schooner, grounded he in the beach, ran out planks and, before the mazed inhabitants had a chance to protest

amazed inhabitants had a chance to protest, the red-shirted pirates were scooping up Manhattan Beach into wneelbarrows and carting it to the schooner.

Police were summoned and the pirates made haste to escape. John Broderick, of U.S. East Thirteenth street, was the only one caught, and the police are now deliberating as to what shall be done with him. He says the sand was wanted for building purposes.

FINISHING THE BUDGET.

The Board of Estimate and Apportionment this morning took up the final estimates for 1893 for the Departments of Health and

1893 for the Departments of Health and Charities and Correction.

The Department of Charities and Correction was allowed \$2,170,125 for 1892. The provisional estimate for 1893 was \$2,649, 540. The increase is: For salaries, \$88,421, 1889 buildings, \$77,000; supplies, \$318,421, 1899 buildings as \$2,649, 549,638 the continuous or \$10,000 for a ladder, which it asked to have made continuous or fivallable for 1893.

The Health Department had \$479,638 the current year and asked for an allowance of \$439,836, or nearly \$40,900 less.

The appropriation for 1892 included \$30,000 for a new reception hospital and \$15,000 for salaries for the bureaus of plumbing and ventilation, which have been transferred to the Euliding Department.
